STRATOSPHERIQUE

Where Clarity Takes Off.

01

SEE HIGHER.

Strategic altitude for total oversight.

02

EXECUTE SHARPER.

Precision in delivery and action.

03

AMPLIFY.

Human intuition × AI scaling.

— WE ARE —

**SEE HIGHER.
EXECUTE SHARPER.
AMPLIFY WITH HUMANS × AI .**

— STRATOSPHERIQUE —

THE FOG

Context of lack of clarity and direction.

- Strategic misalignment across teams.
- Opaque decision-making processes.
- Vision obscured by daily noise.

THE FRICTION

Slow execution and scattered actions.

- Effort diluted across too many initiatives.
- Operational drag and inefficiency.
- Failure to launch with velocity.

IA usage

Low impact of IA usage inside the company

→ The input isn't clear enough to enable a good usage of IA

In my brain

—

Clarity meets audacity.

- Contraste / dualité est la clé de voûte :
- IA = Clarté / structure / rigueur
→ grid system, typographie monospacée, minimalisme NASA.
 - Human (Beug & Braco) : Audace / expressivité / chaleur
→ la Bebas Neue, les aplats violets / dégradé et la touche 80's.

Brand ID

Clarity meets audacity.

IA (Clarity) → structure, précision, rigueur (NASA, grid, monospaces).
X

Human (Audacity) → expressivité, émotion, dérèglement subtil (Bauhaus, 80's, typographies fortes).

Système typo

Jet brain MONO

JetBrains Mono pour les accroches fonctionnelles, labels, UI textuels, citations tech

BEBAS NEUE

Bebas Neue pour les titres, statements, claims de marque.

Fraunces (backup: DM Serif)

une belle sérif rationnelle pour la couche l'édito, corps de texte, blabla.

Grille: Break the grid

Le grid rigide type NASA → squelette de présentation (slides, pages notion, supports stratégiques).

Sur les supports identitaires, casser légèrement cette grille :

- grands titres qui débordent, blocs typographiques monumentaux, alignements "in progress".
- clin d'œil à la désinvolture Bauhaus / années 80 (émotion + fonction).
- oser bloc en aplat franc
- introduire petites anomalies visuelles: filets imparfaits, légers glitches, décalages typographiques.

Couleur

base: "Edge of Heaven" (violet, lilas, crème, rose, blanc).

Accent : turquoise électrique (#00E0C7, couleur stratosphère) pour injecter la touche 80's.

→ à utiliser en point lumineux sur un système global très froid et rationnel (NASA-like).

→ bosser un dégradé avec la color palette "Edge of Heaven"
